

About Me

I am a Business Informatics student focused on bridging the gap between complex technical logic and real-world business impact. I have experience in managing project workflows from initial specification to practical implementation, combining a strong foundation in data analysis with a keen eye for user-centric design.
My personal discipline, rooted in a passion for fitness, has taught me the persistence, consistency, and attention to detail. I am a flexible team player who takes full ownership of tasks, whether implementing code independently or collaborating during code reviews to achieve collective goals.

Contact

- alzbetajaksova@gmail.com
- Slovenské Nové Mesto, Slovak Republic

Skills

- Programming: Python, JavaScript, C, Object-oriented programming, HTML, LC/NC platforms, HTML/CSS
- SQL, Process Optimization, Data modeling, GitHub, Agile methodology
- Firebase, Cloud Integration
- Microsoft Excel, Word, Graphic Design
- Soft Skills: Pro-active, Adaptibility, Communication, Problem-Solving, Team Collaboration

Certifications: ECDL (Modules M2, M3, M4, M7)

Language

- English B2
- Russian B1
- Italian A2

Alžbeta Jakšová

Education

- **GYMNÁZIUM KOMENSKÉHO**
  Trebišov, Slovak Republic

TECHNICAL UNIVERSITY OF KOŠICE (Bc.)
Business Informatics

- Focus on Data Science (Java, C, Python), Integration of IT and business processes
- Experience with SQL databases, data modeling, and process optimization
- Preparing for roles in Data Analysis, Data engineering, Junior software engineer.

Artificial intelligence (Masters degree)

Experience

SALES REPRESENTATIVE (2022 -2025)
Art&Cream Čerhov

WEB APP TESTER (April 2026 - September 2026)
Dôvera zdravotná poisťovňa

- Testing mobile and web applications, reporting bugs, collaborating closely with devs

INTERN - DIGITAL AND ANALYTICS (June 2026 - Now)
Caterpillar - Cat Digital

- Building front-end features for AI Assistant integrated across all Caterpillar apps

Academic projects

- **SMARTER HOME | AI-driven smart-home concept for people with disabilities**. Accomplished a strategic comparison of global tech ecosysems (Google, Samsung, Apple), as measured by a detailed security and compatibility audit, by doing an in-depth market analysis of smart-home automation.

- **SAVEEATS | AI-Driven project with Samsung fridges.** Accomplished a comprehensive €108k business project plan for AI-driven sustainability, as measured by a detailed WBS and risk mitigation strategy, by doing in-depth financial planning and stakeholder analysis.

- **SPACE VOYAGER | Mobile Development & Cloud Integration.** Accomplished a secure, cloud-integrated mobile platform for real-time user competition, as measured by the successful implementation of Firebase Firestore CRUD operations, by doing rigorous data architecture design and secure authentication protocols.
